EXPERIENCE

+ USER INTERFACE DEVELOPER | 2014 - PRESENT

Cru Global (www.cru.org) - Orlando, FL

- Designed, developed and maintain primary company websites which see 40 million users per month in traffic.
- Led creation of brand guidelines and living styleguide which is public in a GitHub repository for use. (<http://cruglobal.github.io/cru-web-styleguide>.)
- Built fully responsive UI elements using a highly customized version of Bootstrap to be integrated into the CMS.
- Created wireframe mockups to test and visualize UI/UX.
- Tested all new development for cross-browser compatibility.

+ FRONT-END WEB DEVELOPER | 2013-2014

Cru Global (www.cru.org) - Orlando, FL

- Developed reusable and scalable components to be used in CMS (Adobe Experience Manager 6).
- Led a project to create company-wide coding guidelines for primary front-end languages used by our developers.
- Translate wireframes into high-performing web pages.
- Led redesign and development of brand new company website.
- Led initiative to reduced web page load time by 66% of primary company website.
